Multi-Cloud Engineer (AWS, Azure, GCP) Training Course

Welcome to Thinkcloudly's Multi-cloud online training course!

In the era of cloud computing, organizations are creating infrastructure on multiple cloud platforms, increasing the demand for multi-cloud experts. This job-oriented Multicloud Mastery Course prepares you for roles in AWS, Azure, and GCP. Learn storage, compute, networking, and databases on all three major cloud services, with comparative studies, and become eligible for millions of cloud computing jobs worldwide.

Why Multi Cloud?

1 Million
Jobs Worldwide

USD 7.6 billion
expected market growth

14%
average annual growth

$117,000 USD
average annual salary of an Multi Cloud expert

+1 (646)980-6267 info@thinkcloudly.com

Skills you will gain

- AWS EC2
- Azure VM
- Storage
- RDS
- BigQuery
- Networking
- Security
- VPC
- Functions
- EBS
- IAM
- Load Balancers

key features

Master 25+ Multi Cloud Skills:
Acquire a comprehensive skill set in Multi Cloud from industry experts.

Hands-On Labs with 35+ Creations:
Master Multi Cloud skills with hands-on lab, Practices and Troubleshooting.

Guaranteed Certificate Assistance:
Receive full support to obtain certifications with a 100% assistance commitment.

Interactive Learning with 15+ Quizzes:
Reinforce your understanding through 15+ quizzes on various Multi Cloud.

- RDS, DynamoDB
- Hands-on Lab: Setting up RDS and DynamoDB

AWS Security and Identity

- IAM, AWS Shield
- Hands-on Lab: Configuring IAM roles and policies

Module 3:

Azure Fundamentals

Azure Global Infrastructure

- Regions, Availability Zones

Azure Compute Services

- VMs
- Hands-on Lab: Deploying Virtual Machines

Azure Storage Services

- Blob Storage, Disk Storage
- Hands-on Lab: Managing Blob Storage

Azure Networking Services

- Virtual Network, Azure DNS
- Hands-on Lab: Setting up Virtual Networks and subnets

Azure Database Services

- Azure SQL Database, Cosmos DB
- Hands-on Lab: Setting up Azure SQL Database

Azure Security and Identity

- Azure AD, Azure Security Center
- Hands-on Lab: Configuring Azure AD and Security Center

+1 (646) 980-6267 info@thinkcloudly.com

The Complete Multi-Cloud Course

Module 4:

GCP Fundamentals

GCP Global Infrastructure

- Regions, Zones

GCP Compute Services

- Compute Engine, Cloud Functions
- Hands-on Lab: Launching Compute Engine instances

GCP Storage Services

- Cloud Storage, Persistent Disks
- Hands-on Lab: Working with Cloud Storage

GCP Networking Services

- VPC, Cloud DNS
- Hands-on Lab: Configuring VPCs and subnets

GCP Database Services

- Cloud SQL, Firestore
- Hands-on Lab: Setting up Cloud SQL

GCP Security and Identity

- Cloud IAM, Security Command Center
- Hands-on Lab: Configuring Cloud IAM and Security Command Center

Module 5:

Comparative Studies and Multicloud Integration

Comparative Study of Compute Services

- AWS EC2 vs. Azure VMs vs. GCP Compute Engine
- AWS Lambda vs. Azure Functions vs. GCP Cloud Functions

Comparative Study of Storage Services

- AWS S3 vs. Azure Blob Storage vs. GCP Cloud Storage
- EBS vs. Azure Disk Storage vs. GCP Persistent Disks

Comparative Study of Networking Services

- AWS VPC vs. Azure Virtual Network vs. GCP VPC
- Route 53 vs. Azure DNS vs. Cloud DNS

Comparative Study of Database Services

- AWS RDS vs. Azure SQL Database vs. GCP Cloud SQL
- DynamoDB vs. Cosmos DB vs. Firestore

Comparative Study of Security and Identity Services

- AWS IAM vs. Azure AD vs. GCP IAM
- AWS Shield vs. Azure Security Center vs. GCP Security Command Center

Multicloud Security Best Practices

- Security strategies and tools

Multi-Cloud
Course Learnings

- Be eligible for IT jobs in MNC's.
- Earn Certificate of completion.
- Deepen your understanding of cloud computing.
- Practice with hands-on labs to polish your cloud computing skills.
- Improve your technical abilities by learning with the finest trainers.
